

WHAT'S NEW

MYOB AccountRight Standard

INTRODUCING THE VERY LATEST
MYOB ACCOUNTRIGHT STANDARD, SOFTWARE
DEVELOPED TO MAKE YOUR BUSINESS LIFE EASIER.

Now includes enhanced usability, flexibility to customise reports and forms and simplified end of year processing.

Software that's smarter

MYOB AccountRight Standard uses the latest technology to give you a more productive way of Minding Your Own Business. The Command Centre is easier to use and everyday tasks are smoother to perform. AccountRight Standard also has a clever new function called HoverHelp, which provides instant assistance when you hold your mouse pointer over a field or function.

More flexible, faster search

Save time using improved search capabilities. Search by name, description or item number when you're on the hunt for a specific client, supplier or item. Quickly sort and group by data attributes and list results in ascending or descending order.

Customise business forms

We've also improved graphics and font handling to give you flexibility when creating PDF invoices, statements and receipts. With AccountRight Standard, your documents will have a professional 'on-brand' appearance.

Generate richer reports

AccountRight Standard has a new Rich Reports Creator that makes it easy to customise your reports, your way – edit headers and footers, add text, shapes, pictures and watermarks.

Options like budgets, jobs and categories allow you to set goals and proactively measure your progress towards meeting them. If a visual snapshot is more your style, an enhanced Business Insights Dashboard gives you a broader outlook.

Sharing information is easier

Moving information to and from AccountRight Standard has never been easier thanks to an intuitive, step-by-step assistant that walks you through the importing and exporting process.

Easier end of financial year

We've simplified end of financial year close off to ensure you get it right first time. Financial data from previous years is now accessible as well, so there's no need to restore company files.
